Manufacturers Of
**ROLLED SECTIONS, FORGINGS,
HAND TOOLS & AGRI IMPLEMENTS**

SHIVAGRICO IMPLEMENTS LTD.

Shivagrigo Implements Ltd. (SIL) is one of the leading manufacturers and Exporters of Agricultural Implements/ Hand tools, Rerolled product since last four decades, and got recognized as a Public Limited Company in 1992.

We have a wide product range of about 150 products such as Angles, Flats, Rounds, Polygons, Squares and Agricultural Implements & Hand tools such as Pickaxes, Pick & Cutter mattocks, Crowbars, Hoes, Hammers, Mauls etc.

At the helm of SIL is Mr. Vimalchand Jain, who is well known for his sound business acumen and tons of experience in the multifaceted field of the export business for the last 40 years. He is ably supported by a strong team of business leaders.

Our company is headquartered at Mumbai and we have a state-of-the-art manufacturing facility at Falna in Rajasthan. We have been exporting our products under the "CHETAK" and "LION" brand labels.

We have serviced clients from various countries like Africa, U.K., Mozambique, Curacao, Ghana and a number of Gulf countries such as Dubai, Jeddah, Riyadh and Asian countries like Srilanka etc.

We have also supplied our products to various government agencies including World Bank, Defence, Railways, Public Works Department and Indian Oil Corporation Ltd (Kandla Bhatinda pipe line project)

We have been recognised for our quality of products and services offered and have also been conferred with the Export Excellence Award for five consecutive years.

Our agricultural implements are manufactured using state-of-the-art infrastructure and suited to the clients' specifications. We assure quality output consistently adhering to strict timelines, we also have an in-house laboratory for testing the chemical composition of the products.

From Our Chairman's Desk

We have consciously expanded our product portfolio through best-in-class technological advances and increased our footprint world-wide. We have executed a number of turnkey projects that include setting up of similar manufacturing facilities as ours in several countries including Tanzania, Kenya and have also exported to African countries.

As a responsible corporate citizen we believe in giving back to society through sustained initiatives.

Vision & Mission

Shivagrigo Implements Limited aims to establish itself as a strategic supplier of Re-rolled and Forged products. We endeavour to provide customer delight by consistently delivering products that are of quality second to none. We strive to become one of the most diversified plants in the industry and generate wealth to serve our shareholders, the surrounding communities and the nation. The company will strive to further expand its product base by developing new products with continuous improvements in our existing product range with higher efficiency.

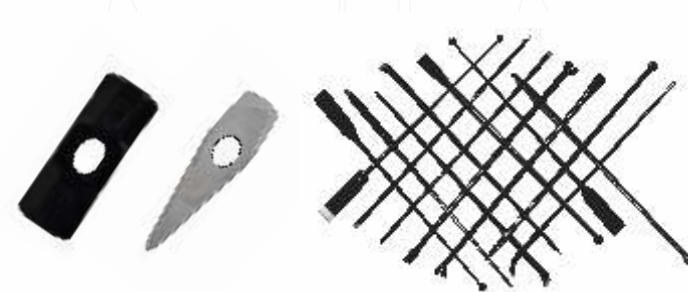

Quality Statement

We are committed to comply with the highest standards of quality and achieve continual improvement in our operations. The company strives to achieve its quality objectives through annual business plans, and review the quality policy periodically to ensure its continuing suitability to company operations.

Social Responsibility

At SIL, social responsibility has been the cornerstone of success right from inception. We are committed to enriching the lives of the community and preserving the environment. We have set up a rain water harvesting plant, recycling / waste water management facility and undertaken a multi-year tree plantation drive near our manufacturing facility. We have also made sustained contributions for the general betterment of the infrastructure like roads, drainage, educational institutions etc.

ROLLED PRODUCTS

The rolling division at our manufacturing facility has a capacity of 36,000 metric tonnes p.a. and manufactures Angles, Octagonal / Hexagonal Bars, Rectangle bars, Square Bars and Flats in special sections which are widely used for various tools as well as in the Automobile industry. We have two rolling mills of 10" & 14" having eleven stands supported by an automatic roughing stand.

DROP FORGED PRODUCTS

The company utilizes two hammers, with a capacity of one and two tons respectively supported by various mechanical and screw presses, to manufacture special kinds of drop-forged, high value products.

HAND TOOLS & IMPLEMENTS

We have four separate forging plants with four roll forging presses and twenty mechanical presses to manufacture Hand tools such as Picks and Mattocks. We also have pneumatic hammers and heavy duty mechanical presses supported by electric heating and coal fired furnaces. We manufacture about twenty lakh implements annually for Tata Steel Limited, Jamshedpur at the forging facility. We also offer hardening through induction and heat treatment as per the buyer's requirement.

CUSTOMIZED OFFERINGS

FORGED PRODUCTS / DROP FORGED PRODUCTS

Packing

As per existing practices, the packing for local market is wire bound bundles. However, gunny laminated cartons or wooden case packing can be offered at an additional cost depending upon the packing lot.

Painting

Locally, all the products are dipped and painted, but the same can be offered either powder coated or spray painted depending on the requirement of the customer. All powder coated and spray painted products are shot blasted for longer shelf life.

ROLLED PRODUCTS

The length can be random or standard length and are available in alloy and non-alloy steel.
